**SPRING 2026**

babysoft collection

## About us

Stabifoot is a Belgian family brand, dedicated to those precious first steps since 1936.

As sisters, we carry forward the adventure started by our family with heartfelt passion. We design our soft soles to feel like a second skin: supple, natural, and in perfect harmony with a child's body.

Our priority is to support healthy foot development through the use of natural materials and ergonomic design.

With Stabifoot, every movement is free and every step is secure, ensuring that discovering the world happens with the utmost comfort.

## Eline & Ilse

Handmade from  
premium leather

100% natural for  
optimal breathability

Soft and comfortable  
for baby's feet

Barefoot perfect fit that  
respects foot shape
